

# SOMEWHERE iN TIME

a walking tour like no other

Step back in time and relive the transformation of the historic Tanjong Pagar district, through this interactive walking tour. Enrolled as "errand runners", wander the streets with our guide and a mystery character from the past, as you complete various tasks to uncover hidden gems and lesser-known tales about one of Singapore's first conservation districts, learn about the resilience and resourcefulness of our pioneers and how they have strived for a better tomorrow. Be prepared to engage all your senses – you'll never look at Tanjong Pagar quite the same way again.

This tour is supported under the STB-NAC Performing Arts Tours Pilot Grant, an initiative by the Singapore Tourism Board and National Arts Council to encourage the development and test-bedding of innovative performing arts tours by tour operators and arts practitioners.
